The Digital Bridge Between Vision & Reality

GROW . ELEVATE

- ✦ Quality in Delivery, Well-being in Development
- ✦ Quality Not Quantity - Well-being Not Complexity

DIGITAL PIN
COMPANY

HI THERE!

We're Digital PIN — your digital bridge between bold ideas and real-world execution. We don't just build tech; we build trust-driven solutions with a sharp focus on quality, clarity, and well-being. Whether you're streamlining operations with a custom ERP, launching a smart platform, or engineering industrial solutions — we deliver value without the complexity.

Let's build what matters.

—

Crafted with care in Egypt. 🇪🇬

COMPANY

ABOUT DIGITAL PIN

At Digital PIN, we are more than a technology provider—we are your digital bridge to innovation and execution. Based in Cairo, Egypt, we specialize in delivering high-impact digital solutions and precision engineering services designed for the local market.

Our mission is simple: quality over quantity. We focus on selective projects that align with our core values—reliability, creativity, and commitment—ensuring every solution not only meets but exceeds client expectations while respecting the well-being of our team.

From custom ERP systems and AI-powered project management tools to solar structures and industrial designs, we build with one goal: to turn your vision into reality.

Building trust, one project at a time.

From Egypt to the world.

WELCOME MESSAGE

Digital PIN LLC,

We are not just a provider of digital and engineering solutions; we carefully choose where to place our expertise, and with whom to build our next bridge.

For us, success is measured by the quality of partnerships we forge, not by their number.

That is why we dedicate ourselves to our influential clients, offering them a unique experience where trust is the gateway and quality is the journey.

Digital PIN LLC,

لسنا مجرد مزود حلول رقمي وهندسي، بل نختار بعناية أين نضع خبراتنا، ومع من نصنع جسرنا القادم.

نؤمن أن نجاحنا يقاس بجودة الشراكات التي نبنيها، لا بعددها.

ومن هنا، يعمل فريقنا ليمنح عملاءنا المؤثرين تجربة مختلفة، حيث تصبح الثقة هي البوابة، والجودة هي الطريق.

**DIGITAL PIN
COMPANY**

OUR VISION

MARKET VISION

To be the most reliable digital bridge connecting innovation with achievement in the Egyptian market.

CLIENT VISION

To create true value for our influential clients through carefully selected solutions, where quality and trust define every achievement.

DIGITAL PIN
COMPANY

OUR MISSION

MISSION

Our mission is to be the trusted digital bridge that transforms challenges into solutions and visions into reality.

We blend project governance, digital innovation, and engineering excellence to guide our clients seamlessly from the very first idea to sustainable execution.

By focusing on reliability, creativity, and commitment, we don't just deliver services — we enable lasting impact and empower our partners to thrive in a rapidly evolving digital world.

OUR VALUES

COMMITMENT

QUALITY

CREATIVITY

TRANSPARENCY

TRANSPARENCY

RELIABILITY VISION

OUR SERVICE

ERP

CUSTOM ERP DEVELOPMENT

- We design and customize ERP solutions tailored to local business needs. By extending Dolibarr's open-source flexibility, we deliver integrated systems that streamline operations, finance, and resource planning with ease.

DIGITAL TRANSFORMATION CONSULTING

- We guide organizations through the journey of digital maturity. From strategy to execution, we help clients modernize processes, adopt emerging technologies, and align digital tools with long-term business goals.

PROJECT GOVERNANCE & MANAGEMENT

- We guide organizations through the journey of digital maturity. From strategy to execution, we help clients modernize processes, adopt emerging technologies, and align digital tools with long-term business goals.

E-LEARNING PLATFORMS & CONTENT MANAGEMENT

- We build platforms that transform how knowledge is shared and managed. By integrating interactive tools, multimedia, and scalable architectures, we empower organizations to deliver education and training digitally.

ENGINEERING & INDUSTRIAL SOLUTIONS

- Beyond digital, we design and implement custom industrial solutions. From solar energy structures to advertising display cabinets, we bring practical engineering that supports sustainability, visibility, and innovation.

OUR PROJECT

OUR PROJECT INCUBATOR – DIGITAL PIN DEV HUB

- Every project grows inside a disciplined environment combining GitHub (code & docs) with our internal Dev-Hub for staging and pre-production.
- This is the “incubator” that safeguards quality, speed, and continuity.

WHY IT MATTERS

- End-to-end traceability: code, docs, issues, and unified releases.
- Assured quality: code reviews and CI/CD pipelines before go-live.
- Security & trust: scoped access, protected branches, dependency checks.
- Reusability: a library of reusable modules and prototypes.
- Living documentation: READMEs, wikis, and changelogs kept current.
- Client-only spaces: private repos and safe staging sandboxes.

CORE COMPONENTS

- GitHub – Digital PIN: central repos (public/private) and release management.
- Dev-Hub (erp.digitalpin.online): staging for ERP modules and custom builds.
- CI/CD & QA: automated delivery, testing, and performance gates.

**DIGITAL PIN
COMPANY**

OUR PROJECT

DOLIBARR CUSTOM ERP

A tailored open-source ERP system, adapted to meet local business needs with seamless modules. It enables efficient resource planning, financial management, and operational workflows with precision and scalability.

CMS DIGITAL PIN

A lightweight, flexible content management solution designed for digital presence. It simplifies publishing, organizes knowledge, and empowers businesses to manage their digital identity with clarity and control.

PIN-KIT

An AI-powered project management assistant that automates routine tasks. It helps teams streamline planning, monitor execution, and transform raw project data into actionable insights in real time.

**DIGITAL PIN
COMPANY**

OUR PROJECT

PINLEARN PROJECT

An e-learning platform under development, built to bridge knowledge sharing with interactive digital tools. It provides organizations with a structured yet dynamic way to deliver and manage education programs.

PINPIN (ATC INFORMATION MODEL)

A specialized prototype for handling aeronautical technical and administrative data. It ensures structured information flow, supporting safety, compliance, and operational efficiency in aviation contexts.

DIGITAL PIN PLACEMENT GROUP

A curated ecosystem connecting trusted clients and partners with advanced digital solutions. It focuses on impact-driven collaborations, ensuring every placement adds measurable value and sustainable growth.

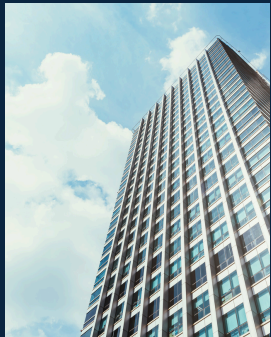

**DIGITAL PIN
COMPANY**

MEET OUR PARTNERS

Hetzner

A trusted European hosting provider renowned for reliability and performance. With Hetzner's infrastructure, we ensure secure, scalable, and energy-efficient hosting for mission-critical projects. This partnership guarantees our clients high availability and a robust backbone for digital operations.

Oracle Cloud

A trusted enterprise cloud provider offering scalable infrastructure and advanced analytics. With Oracle Cloud, we deliver solutions that balance innovation with security and compliance. This partnership supports our mission to provide reliable and future-ready digital ecosystems.

OpenAI

A global leader in artificial intelligence research and deployment. Partnering with OpenAI allows us to integrate cutting-edge AI models into practical solutions, bridging innovation with real-world impact. This collaboration enhances our ability to deliver smarter, more adaptive digital tools to our clients.

DIGITAL PIN
COMPANY

MEET OUR PARTNERS

Cloudflare

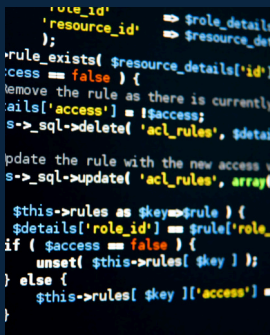

A global network that secures and accelerates digital experiences. By leveraging Cloudflare, we protect client platforms from threats while improving performance. Its advanced edge services ensure resilience, speed, and seamless connectivity across all digital fronts.

GitLab

A complete DevOps platform empowering continuous integration and delivery. GitLab strengthens our ability to manage software lifecycles with precision. From planning to monitoring, it ensures efficiency, speed, and accountability in every digital project we manage.

GitHub

The world's largest developer platform, enabling seamless code collaboration and version control. Through GitHub, we streamline our development cycles, maintain transparency, and foster innovation. It is the central hub where our projects evolve, grow, and remain openly accessible.
